IMPORTANT TERMS of our HOME EQUITY LINES OF CREDIT

THIS DISCLOSURE CONTAINS INFORMATION ABOUT OUR HOME EQUITY LINES OF CREDIT. YOU SHOULD READ IT CAREFULLY AND KEEP THIS COPY FOR YOURSELF. THE INFORMATION FOR ALL PLANS IS THE SAME EXCEPT FOR WHERE OTHERWISE INDICATED.

Availability Of Terms

All terms described below are subject to change. If these terms change (other than the Annual Percentage Rate), and you decide, as a result, not to enter into an agreement with us, you are entitled to a refund of any fees you paid to us or anyone else in connection with your application.

Security Interest

We will take a Mortgage/Deed of Trust on your home ("Security Property"). You could lose your home if you do not meet certain obligations in your agreement with us.

Possible Actions

Termination

If you fail to meet the terms of repayment, or if you act or fail to act in a way that adversely affects our security interest or other rights in the Security Property, or if you have committed fraud or made a material misrepresentation in connection with the account, we may, subject to the governing law, terminate the plan, require payment in full of the entire outstanding balance in a single payment, or cause the Security Property to be sold and the proceeds of such sale to be applied to your obligation to us. You agree to pay any reasonable costs of protecting, retaking, repairing, or selling the Security Property.

Suspension

Your right to request additional advances may be suspended, or your maximum credit limit reduced, at our option, in the following instances: (1) you fail to make the scheduled payments due to us; (2) you fail to make timely payments to the holders of Mortgages/Deeds of Trust senior to ours; (3) you fail to pay real property taxes prior to delinquency; (4) you fail to maintain the required property insurance; (5) the value of the Security Property declines significantly below the appraised value upon which we relied in approving your application; (6) we reasonably believe that your ability to meet your payment obligations is impaired because of a material change in your financial circumstances; (7) governmental action precludes our imposing the interest rate provided herein or adversely affects the priority of our security interest such that the value of our interest is less than 120.00% of your maximum credit limit; (8) the maximum interest rate under the plan is reached; or (9) government regulatory authorities find that further advances under this plan constitute an unsafe and unsound practice. When the condition which caused the suspension of advances or reduction of your maximum credit limit no longer exists, the original terms of your agreement will be reinstated. You understand that if your right to request additional advances is suspended or your maximum credit limit is reduced, you still owe us whatever sums you have already borrowed, all other charges under your agreement and applicable Finance Charges.

Home Equity Plans

We offer two (2) Home Equity Lines of Credit. The Plans differ based on the minimum payment calculation method. Plan 1 provides for minimum monthly payments of accrued interest only during the draw period, and fully amortized payments during the repayment period. Plan 2 provides for fully amortized minimum monthly payments during both the draw and repayment periods.

Each plan has multiple variable rate margins, and the particular margin that will be used to calculate the Interest Rate for your plan will vary based on the Loan-to-Value (LTV) ratio for your plan. The LTV ratio is calculated by adding the current outstanding debt(s) secured by liens against the property to the maximum credit limit that will be established for your account, and dividing that amount by the value of the property. Plans with lower LTV ratios are subject to a lower margin, and plans with higher LTV ratios are subject to a higher margin.

Minimum Payment Requirements

Plan 1

You can obtain credit advances for 120 months (the draw period). During the draw period, your minimum periodic payment will be due on a monthly basis and established at the close of each billing cycle at an amount equal to all accrued yet unpaid finance charges due, subject to the lesser of \$100.00 or your account balance. After the draw period ends, you will no longer be able to obtain credit advances and you must repay the outstanding balance (the repayment period). The length of the repayment period will depend on the date and amount of your last advance but in no event will exceed 120 months. During the repayment period, minimum payments will be due on a monthly basis and will be established on the first day of the repayment period, and any subsequent change in the interest rate, to the amount necessary to amortize the then unpaid principal balance by the agreement maturity date, subject to the lesser of \$100.00 or your account balance.

Plan 2

You can obtain credit advances for 120 months (the draw period). During the draw period, your minimum periodic payment will be established at the time of each advance, and any subsequent change in the interest rate, to the amount necessary to amortize the then unpaid principal balance by the agreement maturity date, subject to the lesser of \$100.00 or your unpaid account balance. After the draw period ends, you will no longer be able to obtain credit advances and you must repay the outstanding balance (the repayment period). The length of the repayment period will depend on the date and amount of your last advance but in no event will exceed 120 months. During the repayment period, minimum payments will be due on a monthly basis and will be calculated in the same manner as during the draw period.

Minimum Payment Example

Plan 1

If you made only the minimum payments and took no other credit advances, it would take 142 months to pay off a credit advance of \$10,000.00 at an **ANNUAL PERCENTAGE RATE** of 6.25%. During that period, you would make 120 monthly payments of \$100.00, followed by 21 monthly payments of \$100.00, and a final payment of \$63.13.

Plan 2

If you made only the minimum payments and took no other credit advances, it would take 142 months to pay off a credit advance of \$10,000.00 at an **ANNUAL PERCENTAGE RATE** of 6.25%. During that period, you would make 120 monthly payments of \$100.00, followed by 21 monthly payments of \$100.00, and a final payment of \$63.13.

Fees And Charges

If the maximum credit limit established for your account at the time it is opened is less than \$20,000.00, you will be required to pay us an origination fee of \$30.00 in order to open a line of credit.

For all credit lines, you may also have to pay certain fees to third parties in order to open a line of credit. These fees generally total up to \$600.00. If you ask, we will give you an itemization of the fees you may have to pay to third parties. If you meet the Minimum Draw Requirements described below, the Credit Union will pay these third party charges on your behalf.

Insurance

You must carry insurance on the property that secures this plan.

Minimum Draw Requirements

You will not have to pay any fees to third parties if the initial credit advance you take when you open your account is equal to or greater than \$5,000.00, and you agree to maintain the Credit Union's security interest in the Security Property for at least 12 months from the time you open your account. If, for any reason, our security interest in the Security Property is not maintained for at least 12 months after your account is opened, any third-party fees and charges that we have paid will be charged to your account as an advance, and you will be responsible for paying them.

Tax Deductibility

You should consult a tax advisor regarding the deductibility of interest and charges for the line of credit.

Variable Rate

This plan has a variable-rate feature and the Annual Percentage Rate (corresponding to the periodic rate), and the amount of your regularly scheduled payments and the amount of your final payment can change as a result. The Annual Percentage Rate includes only interest and no other costs. The Annual Percentage Rate is based on the value of an index. The index is the highest Prime Rate as published in the Money Rates section of The Wall Street Journal in effect on the 10th calendar day that immediately precedes each change date, rounded up to the nearest one-eighth percentage point (0.125%). To determine the Annual Percentage Rate that will apply to your line of credit, we add a margin to the value of the index. Ask us for the current index value, your margin, and Annual Percentage Rate. After you open a line of credit, rate information will be provided in periodic statements that we send you.

Rate Changes

Your Annual Percentage Rate can change quarterly. There is no limit on the amount by which the interest rate can change during any one-year period other than the maximum and minimum Annual Percentage Rates that can apply at any time to this account.

The maximum **ANNUAL PERCENTAGE RATE** at any time is 18.00%. The minimum **ANNUAL PERCENTAGE RATE** at any time is 5.00%.

Maximum Rate and Payment Examples

Plan 1

If you had an outstanding balance of \$10,000.00 during the draw period, the minimum payment at the maximum **ANNUAL PERCENTAGE RATE** of 18.00% would be \$150.42. This Annual Percentage Rate could be reached during the 1st month of the draw period.

If you had an outstanding balance of \$10,000.00 during the repayment period, the minimum payment at the maximum **ANNUAL PERCENTAGE RATE** of 18.00% would be \$180.19. This Annual Percentage Rate could be reached during the 1st month of the repayment period.

Plan 2

If you had an outstanding balance of \$10,000.00 during the draw period, the minimum payment at the maximum **ANNUAL PERCENTAGE RATE** of 18.00% would be \$154.35. This Annual Percentage Rate could be reached during the 1st month of draw period.

If you had an outstanding balance of \$10,000.00 during the repayment period, the minimum payment at the maximum **ANNUAL PERCENTAGE RATE** of 18.00% would be \$180.19. This Annual Percentage Rate could be reached during the 1st repayment of draw period.

Historical Example

The following table shows how the Annual Percentage Rate and the monthly payments for a single \$10,000.00 credit advance would have changed based on changes in the index since 2004. The index is from The Wall Street Journal and is calculated on the first business day of November of each year. While only one payment amount per year is shown, payments may have varied during the year. The table assumes that no additional credit advances were taken, that only the minimum payments were made, and that the rate remained constant during the year. It does not necessarily indicate how the index or your payments will change in the future.
